NOTE: The following Index makes the assumption that the reader is familiar with these newsletters as a communication vehicle instead of a strict genealogy document and that the writer (myself – Larry D. Flowers) is often relaying information in the first person and that I often refer to first names such as Tom, Sherry (Flowers) or Lota (Loepp) – my 1st cousins and expect the reader to know who I am referring to.

At the same time I also use Grandma or Grandpa for Mary Minda Flowers and Charles McDonald Flowers, and mother, father/dad and sister for, Agnes, Luther and Mary Flowers. The same assumption is also extended to my use of other first names associated with aunts and uncles. Subsequently this Index may require an unfamiliar and detached reader using this Index in a research mode to allow a little latitude in comprehension. The special characters [] are used throughout this index to help identify Maiden/Married relationships, which means that wives names can show up more than one time under each of their names or multiple married names. The notification of any mistakes in this index will be greatly appreciated and published in the next iteration.
